EXPERIENCE

Quarterstack Technologies

Jan 2024

Internship: Full Stack Developer

- Fixed some bugs in a project named RedWing using React Js.
- Added and changed some features in the applications.
- Worked on improving the UI of the page.

PROJECTS

Full Stack Mern Blog Site.

Leveraged MongoDB for the database, Express.js for the backend API, React for the front-end interface, and Node.js for server-side scripting.

Implemented user authentication and authorization using JSON Web Tokens (JWT), allowing secure access to personal task lists.

Designed and implemented Create, Read, Update, and Delete (CRUD) operations for tasks, allowing users to add, view, edit, and delete tasks.

Responsive UI: Developed a responsive and user-friendly UI/UX using React and CSS, en

ToDo List App Using Node JS and Embedded Javascript.

Specifically used MongoDB for the database, Express.js for the backend and used EJS (Embedded Javascript) for the front-end interface, and Node.js for server-side scripting.

Designed and implemented Create, Read, Update, and Delete (CRUD) operations for tasks, allowing users to add, view, edit, and delete tasks.

My Personal React Portfolio.

Developed a fully functional portfolio using React JS, leveraging CSS and Material UI for visually stunning and responsive design;

Contact Form: Integrated a contact form for easy communication, utilizing state management to handle form submissions.
